

UNION MEN SHOOT TWO COAL MINERS

Met Them on Highway Near
Sturgis and Ordered Them
Back.

DANGEROUSLY WOUNDED

AND MAY DIE.

Men Who Did Shooting Recently Fined
For Violating Federal Court Order.

USED LONG RANGE RIFLES

--FIRED AS VICTIMS RAN.

As the result of a murderous attack made by two union miners Tuesday afternoon on the highway between Wheatcroft and Clay, two non-union, negro miners who were driving from Providence to Sturgis, were shot and wounded so seriously that the doctors said at once that one of them could not live. The name of the negro who was shot in the bowels and was most seriously wounded was not learned in the first advice to THE BEE. Jackson Withers, the other negro, was shot in the face and through the shoulder. Although his left jaw bone was torn completely out the doctors thought he had a chance to live. It is stated upon reliable authority that the assault was wholly unprovoked.

Had Been to Federal Court.

The two union men who did the shooting were Harve Springer and Bob Hall, of Sturgis. These two men were among the number who were recently arraigned before the Federal court at Owensboro upon the charge of violating the injunction against interference with or intimidation of the employees of the West Kentucky Coal Co., at Sturgis. At that trial Judge Cochran, who presided in the absence of Judge Walter Evans, indicted the light penalty of twenty-five dollars fine each on eight of the men convicted of intimidating non-union men, after admonishing them against any further violation and exacting a promise that they would be good and use their influence to prevent any further violation of the court's order. The Judge, however, sentenced one man for three months imprisonment, for having made assaults and threatened assaults with weapons upon two non-union, negro miners.

Jackson Withers and the other negro miner were on their way from Providence to Sturgis, driving in a buggy, when they were overtaken by Harve Springer and Bob Hall, who were arrested and taken to Morganfield jail. It is said at Sturgis that Springer and Hall have been looking for trouble for some time, and it is believed that they have been implicated in other acts of violence since the miners union has been fighting the purpose of the West Kentucky Coal Company to operate its mines with non-union men.

Preacher Pleaded in Vain.

An interesting story, having especial bearing on the desperate character of the fight of the union miners have been making at Sturgis, has recently come to THE BEE. An able evangelist, who held a revival meeting at Sturgis and had the confidence of both parties to the struggle, investigated the situation carefully by talking with both the miners and the operators and concluded that there was no chance for the union to win; that the operators had made up

their minds to operate their property without union interference and with such men as they chose to employ. He then pleaded with union men to give up the hopeless struggle and look to the welfare of their individual families; to go to Illinois and elsewhere, where employment was offered and men were scarce. But his advice was thrown away and since that time there have been the numerous arrests for intimidation and violence, and the trial at Owensboro. And now another murder is added to the list of outrages committed by passionate and ill-advised men in the name of unionism.

Were Shot as They Ran.

Later news by telephone from Sturgis to THE BEE says that Springer and Hall met the two negro miners about six miles out of Sturgis and ordered them to turn and go back to Providence. The two white men were armed with rifles and the negroes who were terrified, jumped out of their buggy and fled. As they ran they were shot and one of them, Henry Harris, was left for dead. The other, Jackson Weathers, although fearfully wounded, walked the six miles into Sturgis and reported.

Robbery Charge is Made.

When officers from Sturgis reached the scene of the shooting they found the body of Harris in a corn field near the road, and the man was apparently dead but later revived and was still living at noon yesterday. Harris charges that he had \$105 on his person when he was shot and that he was robbed of this amount and thrown over into the corn field. A bullet found in the dirt of the road after passing through the body of the man who was down is a 30-30 calibre, steel bullet and proves the character of the guns used by the union men. No arms were found on the wounded or near the scene of action.

The men under arrest were identified by Jackson Weathers, who has worked for the West Kentucky Coal Co., for some time, and knew them well. There were the other eye witnesses to the shooting.

Harve Springer and Bob Hall were among the number of union miners who were fined at Owensboro by Judge Cochran recently, although their names were not at that time correctly reported in the press dispatches from Owensboro. THE BEE's informant states that Springer has formerly served a term in the penitentiary.

A Caldwell County Woman Accidentally Shot.

Miss Annie Hicks, who lives about a mile from Dawson Springs, while visiting at the home of a neighbor, was accidentally shot by a nine-year-old boy, Bass Morris, in the left arm, shattering it so that amputation was necessary. There were no eye witnesses to the shooting, as the woman and boy were in the room alone. Miss Hicks is in a serious condition, but it is thought she will recover.

Sabree Springs Sold to Louisville Men. A. L. Noe, of Louisville, acting as agent for several Louisville capitalists, has purchased the Sabree springs and hotel at Sabree, Ky., seventeen miles south of Henderson, on the L. & N. railroad. Two large hotels will be erected this fall. A stock company was organized with \$100,000 capital stock. The price paid was \$8,000. Noe will take charge immediately.

SWIFT JUSTICE

Self-Confessed Murderer Hanged
Fifty Minutes After Jury
Sworn.

MILITIA AT MAYFIELD
PREVENTED SERIOUS CLASH.

The most summary justice that has ever been meted out by a judge and jury in Kentucky or anywhere else was handed to Allen Matthis at Mayfield Tuesday evening. Matthis was the self-confessed scoundrel who assaulted Miss Ethel McCain, the telephone operator at Mayfield. After being arrested he was taken to Paducah by the officers to escape a mob, some seventy-five of whom followed the prisoner to Paducah, where they were rounded up and arrested by five policemen. The mob threw away their arms when arrested and could not be held.

The prisoner Allen Matthis was hurried from Paducah to Louisville to protect him from a mob at that place. He was ordered brought back to Mayfield Tuesday night and Co's. E. of Madisonville, D. of Hopkinsville, and I. of Mayfield, were ordered to protect the prisoner. Co. E met the Illinois Central train at Nortonville and escorted the prisoner to Mayfield, where he was given a speedy trial and legally hanged at 8 o'clock Tuesday night.

It was fifty minutes from the time the jury was sworn in to the time the drop fell and broke the prisoner's neck.

There were ten thousand people in Mayfield and the crowd tore down most of the high board enclosure around the scaffold before time for the execution and the hanging was to all intent and purposes public.

The people were in an ugly humor and nothing but the very hasty execution prevented an outbreak. There were threats of a clash between the troops guarding Matthis from the train to the court house and the mass of people who thronged the streets and the military with difficulty prevented serious trouble.

Buying Madisonville Real Estate.

Toombs & Fawcett, real estate firm of Earlinton, purchased, one day last week, eighteen acres of ground and a house and lot in the north part of this city, from Lee Gibson and J. M. Kestner. It is not known what price was paid for this property, though this is an unusually valuable piece of property, on account of its near proximity to the crossing of the M. H. & E. and L. & N. railroads. It is not definitely known what this firm expects to do with this property, but they evidently had the future in view when they made the purchase.—Madisonville Journal.

CHANGE AT CROFTON.

G. W. Morgan Will be Succeeded as
Cashier in Bank by J. Y. Crabtree.

An important business change will be made in business circles in Crofton on September 1.

G. W. Morgan, who has been cashier of the bank of Crofton since it first began business will retire and enter the mercantile business on his own hook. He will be succeeded as cashier by J. Y. Crabtree, who has been with the bank for sometime in the capacity of bookkeeper and who is thoroughly competent for the position. Mr. Crabtree will, in turn be succeeded by W. E. Keith, who has been engaged in the undertaking business.

GOOD HEALTH

Earlington and Other Kentucky
towns Have Good Record.

REPORTS ON LOUISVILLE AND
EIGHTEEN OTHER TOWNS.

Washington, July 28.—Official figures just completed by the U. S. Public Health and Marine Hospital service make a fine showing for eighteen Kentucky towns and the city of Louisville in the report of health and mortality statistics for the year 1904. Earlington makes one of the best records shown, with but 8.89 deaths for each 1,000 population during the year. Louisville shows 17.67 deaths per 1,000, and only 748 deaths in all.

In eighteen Kentucky towns, excluding Louisville, mortality statistics of which the Marine Hospital Service collected, the total number of deaths was 6,429 in 1904, or at the rate of 17.04 per 1,000 of population, contagious disease fatalities being proportionately small, as follows: Tuberculosis, 8.67; smallpox, 4; enteric fever, 197; measles, 50; scarlet fever, 20; diphtheria and membranous croup, 71; whooping cough, 24. Total, 1,239. In the cities referred to the annual mortality rates per 1,000 of population were respectively as follows:

Bellevue, 15.85; Carrollton, 9.60; Cattlesburg, 13.43; Covington, 17.42; Earlinton, 8.89; Eddyville, 18.33; Glasgow, 18; Hopkinsville, 15.50; Hickman, 18; Lancaster, 5; Louisa, 9.57; Marion, 6.25; Murray, 7.20; Newport, 20.10; Owensboro, 15.16; Owenton, 12.50; Providence, 4.44; Williamsburg, 4.

TO THE JAMES-

TOWN EXPOSITION.

Rumors That Kentucky Will Send Some
of Her Crack Companies There.

The Jamestown Exposition has sent communications to many foreign governments, as well as to the Governors of all the states of the Union, inviting them to send the pick of their military forces to that exposition, where will undoubtedly be gathered together the finest bodies of troops the world has ever seen.

It is believed that quite a number of the States will respond to this invitation by selecting the best companies in their respective "Guards," and forming provisional regiments, send them to the exposition.

It is thought that Kentucky will join this movement and there is no doubt but that the members of our very efficient local military organization will enjoy the distinction of being "among those present." However, the final selection will not be made until next year and, in order to be among those chosen for the trip, the high efficiency of the organization must not only be maintained but excelled, if possible. Consequently it is imperative that every member of Co. "G" be ready and prompt to perform any duty, which may fall to their lot and seek to become more proficient in all things military. Only men with training of a year or two can expect to make the trip to Jamestown and it is predicted that every drill for the next year will be well attended and entered into enthusiastically.

"This picture," said the artist, indicating a magnificent marina view, "is valued at \$25,000."

"Yes!" replied the stockbroker, "there's a lot of water in it, isn't there?"—Pick Me Up.

EXTENSIVE IMPROVEMENTS BEING MADE BY L. & N.

Progress of the New Work on the Bay
Henderson Division.

Few people realize the magnitude of the improvements being made on the Henderson division. Although much work of this kind has been done during the past year there is still a great deal to do before the division will be in accordance with the plans of the officials of the L. & N. R. R.

Construction work has been in progress on the southern end of the division between Guthrie and Nashville for several years, it requiring much time to complete the tunnel at Bakers, Tenn., which is one of the most extensive improvements made, and one that has removed the danger that always attended trips up and down this steep grade. This tunnel was set in to service only recently.

For several months past men have been engaged in changing the route of the road. This not only consisted of reducing grades and straightening curves, but new sidings have been laid and old bridges replaced by new ones.

Construction trains are working at the present time near Springfield, Tenn., and at Sulphur Fork men are engaged in replacing the bridge at that point. The iron bridge there has been moved to the new line and work is still being done at that point by the bridge carpenters of the company. Employees with the aid of a steam shovel have made a fill at Sulphur Fork that was 75 feet in length in order to bring the road to the required height. The amount of material, time and money used in this work can be imagined as it was necessary to make the width of this particular fill 175 feet at the base.

After finishing at Sulphur Fork the construction force will take a fresh start at Red river. This is a hard task and will probably require a longer time for completion than the work at any other point except the tunnel at Bakers. The steam shovel cannot be used there and much blasting has been and will be done.

The two passing tracks at Sadlers, Tenn., have been extended so that they now have a capacity of 65 cars and reach almost to Forts. The latter station will be discontinued, it is believed, in the near future.

It will be recalled by the readers of THE BEE that the surveying forces of the L. & N., surveyed both the northern and southern part of the division last winter and in the early spring. The northern part was only surveyed as far as Robards as the road was considered to be in no need of changing beyond that point. Sidings have been extended on this end of the division and it is understood that other improvements will be made later on. It is not necessary to mention the improvements made in the Earlinton yards as this is familiar to all the readers of THE BEE, having been fully reported in past issues.

Propositions have been submitted to the citizens of Sebree and Webster county in regard to the construction of a railroad from Green river to Dixon. If the propositions are accepted and right of way secured the line according to present indications will.

Actresses rarely marry between seasons, but usually late in the fall.

FIERCE FLAMES

Consumes Four Buildings in
Forty Minutes.

GOOD WORK IS DONE.

Fire broke out in the clothes pressing room of Henry Martin Wednesday morning a few minutes after eight o'clock, and in forty minutes the establishment of Farnsworth & Rootz, the warehouse of W. C. McLeod, the building occupied by Henry Martin, the office of Dr. N. G. Mothershead and the shoe shop of Miles Nourse were destroyed. The fire was caused by the overturning of a gasoline stove. John McCarty, who works for Henry Martin, attempted to light the gasoline stove; somehow the gasoline caught fire and he threw a bucket of water on it and called "Fire." Roy Ford, who works next door, ran in to assist in putting the fire out. In the meantime McCarty grabbed a blanket from the bed and attempted to smother the fire with it. Unfortunately he overturned the stove and it exploded with great force. The flames immediately leaped as high as the roof and the boys, seeing it would likely be serious, gave the alarm.

In ten minutes time half the town was on the scene of action and water was being played on the raging fire from three large hoses. It was soon discovered impossible to save the houses on fire and great effort was made to save the livery stable of T. H. Stone which was accomplished only after heroic work. The round house men deserve special mention for prompt and effective work as do a large number of others in fact every one wanted to help all they could to extinguish the flames. When the fire was at its worst some level headed man suggested attaching the large L. & N. hose to the fire plug on the corner of the St. Bernard store and running it across the railroad crossing. As soon as this was accomplished the fire was practically under control and there was nothing but a heap of wet and smoldering ruins. There was no insurance on these buildings and a large percentage of the various stocks were lost.

HOPKINS COUNTY
MEDICAL ASSOCIATION.

Interesting Meeting Held by Organization
Last Thursday.

The Hopkins County Medical Society met at the court house at Madisonville last Thursday. The meeting was called to order by Dr. Nisbet, of this place, who is the president of the society. In the absence of Dr. Long, Dr. Moody, of Madisonville, was appointed secretary pro tem. An interesting paper was read by Dr. Earle, of Charleston, which was discussed by most of the members present. Cases were reported by Drs. Gardiner and Moody.

The report of the committee in regard to life insurance examination fees was postponed until the next meeting, which will be held in this city the last Thursday in August.

The members present were: Dr. Earle, of Charleston, Drs. Ross, Sory, Moody, Towns, O'Bryan and Kell, of Madisonville, and Nisbet, of Earlinton.

A Cleveland bank requires its employees to sign an agreement not to enter any place where intoxicating liquors are sold. Two employees were recently discharged because they entered a liquor selling restaurant after the theater.

ENFORCING EIGHT-HOUR LAW.
Government Brings Suit Against Two Alleged Violators.

Washington, July 27.—Action was begun Friday in the local police court by the government against alleged violators of the federal eight-hour law.

Information was filed charging the District Construction Co. with working its men on the new Connecticut avenue bridge longer than the permitted eight hours, and the Pennsylvania Construction Co., which is building the Piner bridge, with the same offense.

The informations were filed by Assistant District Attorney Eashy Smith. These prosecutions are the first of the kind brought by the government.

REVOLUTIONISTS ROB A TRAIN.
Secure \$20,000 of the Czar's Money, Kill Eight and Wound Others.

Warsaw, July 30.—A passenger train carrying government money, guarded by a detachment of soldiers and gendarmes, was attacked Saturday between Czestochowa and Herby by ten revolutionists.

Lively firing ensued, during which two gendarmes, four soldiers and two civil employees were killed and others of the guards were wounded. The attacking party carried off \$20,000 and the arms of the defenders of the train.

ROCKEFELLER FROM EUROPE.
The Oil Magnate, His Wife and Party Return on the America.

New York, July 30.—John D. Rockefeller was a passenger on board the steamer America, which arrived from Hamburg Saturday.

Mr. Rockefeller was not to be seen on the arrival of the America at quarantine. In his party were Mrs. Rockefeller, Miss A. E. Turner, Miss W. W. Benjamin, Dr. H. F. Bicker and Charles C. Heyde.

Robert A. McMorick, the American ambassador at Paris, and Mrs. McMorick and Mr. and Mrs. Reginald Vanderbilt were also passengers on the America.

DEBS TALKS TO THE SOCIALISTS.
Says He Will Lead a Million Men to Haywood Is Convicted.

St. Louis, July 30.—"If W. D. Haywood, Charlie Meyer and George A. Pettibone, charged with the assassination of ex-Gov. Steunenberg of Idaho, are found guilty by United States courts and hanged, 1,000,000 working people of this country will arise in revolt and bloodshed will result. I will lead the army of revolutionists."

The above declaration was made by Eugene V. Debs, former candidate for president of the United States on the socialist ticket, at a socialist meeting in this city Sunday.

TWO KILLED IN EXPLOSION.
Boilers in the Vincennes (Ind.) Paper Mills Let Go.

Vincennes, Ind., July 31.—The explosion of two big boilers of a battery of six in the Vincennes paper mills at 7:30 Monday morning killed two employees of the mills and injured a number of others.

The dead are Harry Borders, aged 69, and Lyle Lighty, aged 25, the former being master mechanic of the plant and the latter a fireman.

Mr. Edward Shepard, wife of the owner of the mill, was struck on the back of the neck by a flying fragment of glass as she was passing the porch of her house, two squares from the mill.

Misses Carrie and Lucy Crenshaw have returned from a sojourn at Kirkwood, Mo., accompanied by Miss Margaret and Edith Richards, and Bettie Crenshaw, of Hopkinsville, who are now their guests.

A RUSSIAN CITY IN FLAMES.
Tartars, Armenians and Russian Troops Fight at Shusha.

St. Petersburg, July 31.—As anticipated July 29, the triangular truce between Armenians, Tartars and Russian troops before Shusha was of the briefest nature.

The fighting is not only in full progress at Shusha in a town of 30,000 persons (180 miles to the southeast of Tiflis), the Tartar quarter of which apparently is in flames, but it has spread to the surrounding country. There the Tartar population has risen and is striving to overwhelm the Armenians and the Russian troops.

It is worthy of note that the Russians who in the disorders of last year were accused of protecting the Tartars from Armenian attack are now themselves hard pressed by the Mohammedan hordes.

Duma Charged With Treason.
St. Petersburg, July 31.—The public prosecutor has started proceedings against the members of the lower house of parliament who signed the Vilborg manifesto. The charge will be virtually high treason, the maximum penalty being hard labor in the mines.

Part of Finger in Cigar.
Fort Dodge, Ia.—George Louhard, of Memphis, Tenn., while visiting relatives smoking a cigar, and, breaking in open, he discovered a portion of a piece of the nail. It is believed some workman's finger was caught in the machinery and the severed portion became accidentally mixed with the cigar.

LOCOMOTIVE BLASTS

THE MEN OF THE RAIL.

Through time and Space in a furious
race
Spurring the midnight gales,
The steel steed reels on flying
wheels
Over the shining rails;
With good cigars in the sleeping
cars.
Cozy and safe and warm,
Ye pay small heed to the headlong
speed,
And the men who breast the
storm.

When the signal flares and the red
light glares,
Out of the darkness dread,
Scant time is there for oath or
prayer,
By the men ho ride ahead;
With rapid thought is the quick
deed wrought,
That checks the rushing train,
And its bit or miss as the air tubes
lies,
And the brake rods grind and
strain.

'Tis there's to dare, both foul and
fair,
Just as the Lord may send,
With steadfast heart from the
whirling start,
To the good or evil end;
It's all in the work, though Death
may lurk
In the murky gloom before,
They laugh at fear in the ruddy
cheer,
That streams from the furnace
door.

Now this is the dream of the sons of
steeds,
Men of the cab and rail,
"A level track and no looking back
From the lure of the homeward
trail;

We'll strike right through of a
scheduled true,
And never a moment late,
For there's no delay on the right of
way.

When we pay our debts to fate,"
—George T. Parry, in Chicago Ex-
aminer.

According to a preliminary re-
port of the Interstate Commerce
Commission, the gross earnings
of the railroads of the United
States, covering approximately
219,000 miles of road, will prob-
ably show for the fiscal year

ended June 30, an increase of 10
per cent over the \$2,073,000,000
earned in 1905. This will prove
a banner year for American rail-
roads in spite of the "adverse
legislation" complained of. The
official figures will not be avail-
able for all the roads for some
months yet, but the increases
that have been shown month
after month give reason to ex-
pect the 10 per cent in-
crease. There have been heavy
expenditures for improving the
roads, but the net earnings will
be very favorable. No section of
the country has failed to profit
by the favorable conditions
which existed this past year.

Dispatcher Edwin Park Mar-
tin was in Madisonville Friday
on business.

Engineer Hugh Mulvaney was
in the county seat Monday.

Engineer Peyton Boxley was
in charge of engine 2109 on the
interurban train, Sunday during
the absence of Patrick Whalen.
Conductor Ed. Beal, who has
been confined to his home at
Howell, Ind., for the past month
and a half by an attack of
rheumatism, resumed work
Tuesday. He is assisting Con-
ductor Ed. Cunningham on the
interurban train during the fair
this week.

Freight conductors have been
instructed to make interstate re-
ports at midnight from July 8 to
Aug. 3. Conductors in Kentucky
when midnight arrives will re-
port from the nearest terminal.

Operator Westerfield visited
home folks in Sebree this week.
Conductor Wm. Wene, of the
St. Louis division, is on the Ev-
ansville-Providence accommoda-
tion during the absence of Lew
B. Waltz.

Burned At Sea—Crew Rescued.
Madrid, Aug. 1.—The Spanish steam-
er Cabo Trafalgar has been burned at
sea. Her crew were rescued by the
British steamer Universal, which also
towed the shell of the burned steam-
er's hull to Santander.

LIST OF MEDALS TO BE GIVEN AT ENCAMPMENT.

Adj. Gen. Lawrence Issues Circular Let-
ter That Will Interest State Guard.

Adj. Gen. Lawrence, of the
Kentucky State Guard, has is-
sued for information of mem-
bers of the guard a circular an-
nouncing that gold and silver
medals will be given at the Hen-
derson encampment for target
shooting records made during
the encampment. The circular
is as follows:

The following information govern-
ing the distribution of medals for
efficiency at target practice by State
troops at Henderson, during the
1906 encampment, is published for
the information and guidance of all
concerned:

The Governor's medal, a gold
medal emblematic of the military
championship of Kentucky for the
year 1906, for best total score made
during the encampment by any
member of the Kentucky State
Guard.

Regimental championship medals.
A gold medal to each regiment for
best total score made by any mem-
ber.

Signal Corps medal.
A silver medal for best total score
made by any member of the Signal
Corps.

Hospital Corps medal.
A silver medal for best total score
made by any member of the Hos-
pital Corps of each regiment.

Company medals.
A silver medal for best total score
made by any member of each com-
pany.

A contestant may win both his
company or corps medal, his regim-
ental medal and the "Governor's
medal."

The highest score possible is 150,
and consists of two sighting and ten
shots for record at 200 yards, pos-
ition of hand; two sighting and ten
shots for record at 300 yards, pos-
ition choice of sitting or kneeling;
and two sighting and ten shots for
record at 500 yards, position prone
with head toward the target.

Texas Gubernatorial Primary.
San Antonio, Tex., July 31.—No
gubernatorial candidate received a ma-
jority of the votes cast at the Texas
democratic primaries, although Camp-
bell has a good lead. The convention
meets August 14.

Lawyer's Remarkable Story

After Hargis-Callahan Trial—
(Louisville Times.)

An attorney who was interested
in the Hargis-Callahan trial at
Bettysville for the murder of J. B.
Marcum was in Louisville a few
days ago and told this story, dis-
claiming, however, of referring to
the remarkable result of the Bettys-
ville verdict.

"An American visited Cuba before
the Spanish-American War, and a
few hours after his arrival notice
was served on him that he had been
made defendant in a suit for \$150
filed by a Cuban tailor, who alleged
that he had purchased three suits
of clothes. The American had
bought no clothes, nor anything else
for that matter, and was justly
indignant. He employed a Spanish
lawyer to fight the case. His at-
torney told him not to worry and not
even to attend the trial of the case.
Just to satisfy his own mind, how-
ever, he went to the Magistrate's
office with a friend who understood
Spanish to hear the proceedings.

"The tailor proved by two reliable
witnesses that he had sold the
clothes to the American had ordered
them and had promised to pay \$150.

"The American's lawyer admitted
that his client had ordered the
clothes and had received them, and
that they were well worth \$150, and
then introduced for three reliable
witnesses—who testified that they
saw the American pay the tailor
\$150, in cash for the clothes, when
they were delivered."

Married at Howell.

Mr. N. L. Hayse and Miss
Myrtle Kelly were united in the
holy bonds of matrimony on last
Sunday morning at 11:30 o'clock
at the home of the bride in
Howell, Ind., by Rev. Woods.
The bride was beautifully gowned
in white silk trimmed in all lace
and carried a bouquet of bride's
roses. The young people left on
the L. & N. train, No. 51, for
Hopkinsville to visit friends and
relatives of the groom. Miss
Kelly is a favorite in Howell and
numbers her friends by the
score. Mr. Hayse is an employe
of the L. & N. R. R., at that
place.

THURSDAY, AUGUST 2, 1906.

POLITICAL ADVERTISING.

Kentucky's state editors deserve credit for their vigorous kick against the dead-end, self-advertising politician—Newspaperdom. This is the opinion of a publication that knows the newspaper business and the many ills the newspaper is heir to if the publisher does not take the straightforward and independent business position that the paper is his own and that the use of its space by anybody else must be paid for. Some of the politicians, in Kentucky, too, are beginning to recognize the fact that if they want to advertise themselves they should and must pay for the privilege. And paid political newspaper advertising has already produced some remarkable results in Kentucky, which are known to the wise politicians and prove to them beyond the peradventure of a doubt that such advertising is the best a candidate can possibly have.

In recognition of these facts the question of political readers was given serious and practical consideration by the Kentucky Press Association at its meeting at Grayson Springs last week. Many a politician and many a candidate who has held that the newspaper should be freely open to their uses during a campaign are likely to have an awakening to the true business aspect of newspaper making.

HON. POLK LAFLOON in an open letter to Editor J. J. Glenn, advocates leasing mineral rights to an operator who would undertake in good faith to develop a mine and to take out the coal underlying the town of Madisonville. Mr. Lafloon estimates that within the coal area underlying the town's limits coal enough could be taken out upon a royalty basis to give the municipal treasury the sum of \$900,000 or more. This money, he argues, should be used to supply school buildings, lights, water, sewerage system, parks, etc. He believes that he advances a practical idea and that future generations will realize and act upon the improvement of this opportunity if the present one throws away the chance. It is necessary for the city and all lot owners to cede their mineral rights to be used for the public good. And there's the rub. Many would object to being undetermined. Some would want their own royalty and every individual shade of opinion would have to be reckoned with in securing leases. There is wealth under the town beyond a doubt but if ever the municipal mine is opened the boundary lines describing the mineral rights will be crookeder than the lines that illuminate the political map of that city.

This city health officer of New Orleans announces his belief in the top water minnow as a destroyer of mosquitoes, to take the place of kerosene in stagnant pools. He says these minnows multiply with great rapidity and destroy the wigglers, which develop into mosquitoes. The city of New Orleans is now spending \$60,000 for cutting weeds to dry up stagnant pools where the ponds do not readily evaporate. The top minnow may thus become a

great economic factor as well as an effective health officer.

The official figures of the United States Public Health and Marine Hospital Service has given added proof to the fact Earlington is a healthy town. The figures just compiled at Washington for the year 1904 show interesting comparisons of health and mortality statistics in nineteen Kentucky cities. These figures, published in full on the first page of the issue, place Earlington among those cities making the best showing in the record and uphold the general belief that Earlington is a good town to live in.

The next Kentucky State Fair, which will be held at Louisville, is already an assured success: the Commercial Club of Louisville is to do the press work, and Bob Hughes is secretary of the Commercial Club.

Our neighbors at Madisonville had better compromise on moonlight. Its cheaper in the long run than lawsuits and things.

POLITICAL GOSSIP.

Judge James Hargis has again proven his political strength in the county of Breathitt. At the Democratic county convention held at Jackson Saturday to elect delegates to the Tenth District Congressional convention Judge Hargis named the chairman who won by 150 majority. There was trouble in the air for awhile, but no bloodshed.

A club of "original Bryan Men" known as the "Old Guard Bryan Club" has been formed in Louisville to take charge of the Bryan celebration planned to be held at the new Armory building early in September. Only blown-in-the-battle original Bryan men need apply. A cablegram has been received at Louisville from Mr. Bryan accepting the invitation and saying he would fix date.

It is announced in a dispatch from Henderson that Congressman Stanley "is after Gov. Beckham's scalp and will not lose a single opportunity to do all that is within his power to defeat the Chief Executive" in the senatorial race.

There is much speculation as to whether Ollie James will or will not permit his friends to put him in the race for Governor against Judge Hage and Attorney General Hayes, both of whom are unsatisfactory to the administration forces.

Former Judge Alton R. Parker has declared himself strongly against the proposition that the New York Democrats nominate William R. Hearst for Governor.

Judge E. Barry, of the Benton Tribune, was asked to become a candidate for the Democratic nomination for Lieutenant Governor at the Kentucky Press Association meeting at Grayson Springs last week. Twenty-five newspapers pledged their support. Judge Barry.

Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood; they are starved, nervous. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery. In this way you feel clean, strong and vigorous—you are toned up and invigorated, and you are good for a whole lot of physical or mental work. Your strength and energy increase in vitality and health are lasting. For a short time, it is that they are largely composed of alcohol, the drug in solution. This alcohol shrinks up the blood corpuscles, and in the long run greatly injures the system. One may feel well and better for the time being, but in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper the words: "This is a list of all its several ingredients. For the druggist to offer you something he claims is 'just as good' is to insult your intelligence."

Every ingredient entering into the world-famed "Golden Medical Discovery" has the unanimous approval and endorsement of the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement. The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in an stomach, liver and bowel troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach and bowels and kindred ailments, but the Golden Seal root used in its composition is greatly enhanced in its curative action by other ingredients such as Stone Root, Black Cherry bark, Bloodroot, Mandrake root and chemically pure triple refined glycerine.

"The Common Sense Medical Adviser" is sent free in paper covers on receipt of 11 cent stamps to pay the cost of mailing only. For 31 stamps the cloth-bound volume will be sent. Address Dr. R. V. Dr. Pierce's Pleasant Pellets cure constipation, biliousness and headach.

SUFFERED AGONIES FOR FOUR YEARS

Whole Foot Nothing But Proud Flesh—Tried Different Physicians and All Kinds of Ointments—Could Walk Only With Crutches—Ohio Man Says:

"CUTICURA REMEDIES THE BEST ON EARTH"

"In the year 1899 the side of my right foot was cut off from the little toe down to the heel, and the physician who had charge of me was trying to sew up the side of my foot, but with no success. When he found out that wouldn't work, he began trying to heal the wound with all kinds of ointment, until at last my whole foot and way up above my calf was nothing but proud flesh. I suffered untold agonies for four years, and tried different physicians and all kinds of ointments. I could walk only with crutches. It is sixteen months ago since I began using Cuticura Soap and Ointment for my limb and foot. The first two months the Cuticura Remedies did not seem to work, but I kept on using them both. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Ointment often during the day and kept it up for seven months, when my limb was healed up just the same as if I never had trouble."

"It is eight months now since I stopped using Cuticura Remedies, the best on God's earth. I am working at the present day, after five years of suffering. The cost of Cuticura Ointment and Soap was only \$4.00; but the doctors' bills were more like \$600. You can publish my name and refer any one to write to me about Cuticura Remedies. I will answer all letters if postage is enclosed. John M. Lloyd, 718 E. Arch Ave., Alliance, Ohio, June 27, 1905."

Complete External and Internal Treatment for every Blemish from Pimples to Scalds, from Itchiness to Acne, Eczema, and all kinds of Skin Diseases. Cuticura Soap, 25¢; Ointment, 25¢. Beware of cheap imitations. Cuticura is made in the U. S. A. by J. C. Ayer & Co., Lowell, Mass. U. S. Pat. 2,100,000. Sold by all druggists and dealers. Write for full particulars. Cuticura is the best remedy for all skin diseases. It is the only remedy that cures. It is the only remedy that is safe. It is the only remedy that is reliable. It is the only remedy that is effective. It is the only remedy that is permanent. It is the only remedy that is cheap. It is the only remedy that is easy to use. It is the only remedy that is pleasant. It is the only remedy that is trustworthy. It is the only remedy that is successful. It is the only remedy that is the best. It is the only remedy that is the best on earth.

besides being a newspaper man is a member of the Legislature.

W. Vernon Richardson, secretary of the Kentucky Press Association is mentioned in connection with the race for Railroad Commissioner in the Second District.

Judge A. R. Burnham, of Richmond, Ky., has been selected to serve for a second time as Republican member of the State Board of Election Commissioners. The selection was made at the meeting of the State Central Committee held at Louisville last week.

Harry Giovannoli is representing the Hon. John W. Yerkes at the Kentucky pie counter in Washington while the Commissioner is abroad looking into the matter of denaturalized alcohol.

A WORD WITH ADVERTISERS

The more attractive a man makes his advertisements the more efficient as money bringers they will be. A neat article of publicity is stronger than one showing a sloven make up. The advertisement reflects the idea prevailing in the store, and when it shows taste in its preparation one is sure to find taste in the selection and arrangement of the goods the advertisement represents. Most whole salers, realizing this fact, take pains to make their advertisements artistic; and what is good for the wholesaler's method of advertising is equally good for the retailer's methods. In fact, it would seem of more importance to the retailer than to the wholesaler to have his advertisements as beautiful as one's means will permit. People love the beautiful, and hence what to them has even the appearance of something beautiful is attractive to them.

"Did he really tell you I had a case of stage fright?" asked the amateur actress.

"No," replied the dearest friend, "he said you were."—Philadelphia Press.

Sunday Island, in the Pacific, is really the tallest mountain in the world. It rises 2,900 feet out of five miles of water, and is thus nearly 50,000 feet from base to summit.

Nominated For Congress. St. Joseph, Mo., Aug. 1.—Charles F. Roeder, of Savannah, was nominated for congress by the Fourth district democratic convention.

AT SVEABORG

MUTINY OF RUSSIAN MARINES
AND TROOPS AT THE "GIB-
RALTAR OF THE NORTH."

SECONDARY UPRISING

The First Emuets Crushed Only to Be
Followed By a Second—The Muti-
neers Have All the Mov-
able Artillery.

Helsingfors, Aug. 1, 1:40 a. m.—Sveaborg is entirely in the hands of the mutineers, who now have in their possession every kind of armament. A horrible scene occurred during last night when the fierce fighting was continued. The heaviest artillery was used during the conflict.

Several officers were killed or wounded. The wounded were transported to Helsingfors.

Admiral Natorf was bayoneted. He had been transported to the hospital, promising forgiveness in exchange. Instead, he was stoned and thrown into the water with a stone to drown his neck.

"GIBRALTAR OF THE NORTH."

Practically in the Hands of the Mutineers.

Petersburg, Aug. 1.—No report of the suppression of the great revolt of the garrison at Sveaborg fortress, "Gibraltar of the North," has been received in St. Petersburg.

A secondary uprising among the troops and troops stationed at Sveaborg barracks, on the peninsula, emanating with the mainland, erupted out at a late hour Tuesday afternoon by loyal troops after fighting, in which nine cruisers, destroyers and torpedo boats participated.

Holding Their Positions.

Sound of firing on the islands and the fortress has ceased, and in the fact that the occupation of the entire water front by Cossacks into the obtaining of positive news. It is announced at Helsingfors that the mutinous artillerymen and sailors are holding their positions, occupying islands and the fortress to be in their possession, and have practically all the machine guns and quick fireers and most movable armament of the fortress.

Laining, the commandant of the fortress, is holding on to the main land Commander island with a force

of loyal infantry.

General Strike Declared.

A general strike was declared in Helsingfors by the socialist workmen. All factories had been closed. The last direct dispatch from the press correspondent, which has just arrived here, was eleven hours in route from Helsingfors. The correspondent said that the "red guard," the armed socialist legion, was contemplating an uprising to attempt the release of the prisoners captured in the Skatudden barracks.

Owing to the cutting of telegraph wires by the flying expedition of the "red guard," which destroyed the road at Rindholm, the freshest news of the mutiny is being received by the roundabout means of telephoning to Viborg and telegraphing from there to St. Petersburg. This entails a delay of several hours.

Firing On Commander Island. The military authorities received a telegram from Helsingfors this morning from Maj.-Gen. Laining, announcing that the fortresses and artillery had opened fire on Commander island. The insurgents seized artillery, all the machine guns and took possession of one of the islands. Some of the telegraph wires have been cut.

He told a caller that the situation he himself was on Commander island with four companies of the garrison and two companies of sharpshooters. He does not give the number of casualties.

Premier Stolypin also has received frequent messages concerning the mutiny. He told a caller that the situation was critical to an extreme degree. Almost the entire fortress is in the hands of insurgents and there were comparatively few loyal troops in Helsingfors. The entire socialist population is led by the "red guard."

SHORT PARAGRAPHS OF NEWS

Kansas Cityans organize to improve the Missouri river.

Joseph Bardenheer, a jeweler, was arrested and robbed at Madison, Wis. Gallows erected at Mayfield, Ky. for negro before he was tried.

Wind, rain and hail injure crops in Minnesota, North Dakota and Iowa.

Reported that German government has leased island of Chile from Chile.

MANY LOST IN A STORM

SWEPT NEW YORK CITY AND NEARBY SEA COAST.

Came Up Suddenly, and But For the Work of Life-Savers the List Would Have Been Longer.

New York, July 30.—The storm that suddenly swept New York and the coast Sunday was remarkable for the fatalities it caused. More than twenty-five known cases of drowning resulted, and there were vastly more than that saved through heroic life-savers. Four were lost by capsizing of a yacht off Coney Island. Four lost in a rowboat off Hoffman island. On Long Island Sound, N. J., two girls and a youth were drowned when a rowboat upset. At Fulton, N. Y., five drowned in Lake Nechawanta when a sailboat capsized.

Victims of the Elements.

A large meteor, illuminating the heavens, preceded heavy storm at Louisville.

At Cleveland lightning killed John Clynick during prayer at a funeral.

Near Waco, Tex., lightning stunned 20 at a picnic; two may die.

In Albemarle county, Va., lightning killed Mrs. C. G. Gray and brother, Christian Gray, shocked Mr. Gray and two children and tore the house to pieces.

THE FIRST TIME IN HISTORY.

Appropriation for Site for Government Building Not All Used.

Washington, July 28.—An amazing thing has come to light. An appropriation for the purchase of a site for a federal building has not been entirely used by the city named as the beneficiary by congress, and as if that were not sufficiently astounding, it was an Ohio city, to-wit, Toledo, that exercised such unwise self-restraint.

Never before since congress went into the business of rolling pork barrels has such a thing occurred. An owner of real estate desired by the government for a site for a government building actually sold his lots to Uncle Sam for \$65,000 less than congress appropriated.

An Express Clerk With Nerve.

New York, July 28.—Samuel Byrley, an express clerk, who successfully bid for \$5,800,000 Panama bonds on his nerve and the expenditure of a two-cent postage stamp, has sold his right to the allotment to J. S. Baché & Co., who in turn disposed of the bonds to Flak & Robinson. What Byrley's profit on the transaction is not definitely known, but possibly reaches \$30,000.

RUSSELL SAGE'S MONEY

IN LEAVING WEALTH TO WIFE HE GAVE IT TO CHARITY.

WILL SCATTER LAVISHLY

As the Husband Accumulated Riches the Wife Studied Philanthropy, Family Physician Says.

New York, July 28.—Russell Sage's fortune, estimated at from \$70,000,000 to \$80,000,000, has been left virtually to charity. Those close to Mrs. Sage, to whom practically the entire estate was bequeathed, declare with seeming authority that the millions will be distributed in aid of worthy objects and in accordance with an understanding reached by the financier and his wife long ago.

As Mr. Sage's life was given up to the accumulation of riches, so the years of Mrs. Sage have been devoted to a study of philanthropy, and what he gathered she expected to scatter with a lavish hand.

Says Mr. Sage's Knew.

Dr. Schmuck, who has been the family physician, said in an interview: "In leaving his fortune to Mrs. Sage, he has left it to charity. She will distribute it. How could a woman of such advanced years spend a thousandth part of it herself? Mr. Sage knew his wife had made a study of philanthropy, and that she knew much more than he did about it. He knew that in leaving his fortune to her she would take advantage of this study she had made and distribute the fortune wisely. Despite the impression which the will may have given, the fortune has been left to charity. I do not know Mrs. Sage's exact plans. That she has certainly some plans I do know. Her gifts will be along broad lines, as she is deeply interested in educational work in various forms of charitable enterprises, in the soldiers and sailors, in the Young Men's Christian association and in hospitals. That is all I can say to indicate what will become of the fortune."

Report Says There Will Be a Contest.

New York, July 30.—It is reported that there will be a contest of the Sage will, and that it will be brought by the Ohio relatives and Mrs. Gray. Mr. Sage. In the event the contest does not succeed, this action would not validate the legacies of \$25,000 each to the nephews and nieces.

SAVED BY MIDNIGHT WRIT

To Inquire Into Sanity of Man Who Slew an Alabama Senator.

Birmingham, Ala., July 27.—At midnight Thursday, Judge Weaver, of the criminal court here, gave a writ of habeas corpus to allow an inquiry into the sanity of John Williams, sentenced to be hanged at Culpeper, Va., for the murder of State Senator R. L. Hipp. This serves to stay the execution after the governor had ordered out troops to accompany the sheriff and his prisoner from Birmingham, where Williams has been in jail, to prevent possible mob violence at Culpeper.

TRYING TO BLOCK ROOSEVELT.

Sultan of Turkey Believes He Will Gain Great Glory.

Constantinople, July 28.—John G. H. Leitchman, who was recently elected to be United States ambassador to Turkey, has sent the sultan an autograph letter from the president in regard to the raising of the national flag to an embassy. The sultan, however, is resolved to do everything in his power to block the wishes of America in regard to the establishing of an embassy in his capital. He is giving the embassy incident all possible importance, believing he will gain great glory if he can defeat the desires of President Roosevelt.

SPAIN DOESN'T LIKE IT

Believes She Should Have Been Arbitrator in Central America.

Madrid, July 30.—The arbitration of the dispute between Guatemala and Salvador through the United States has developed considerable irritation here.

The Madrid journals criticize the event, declaring that Spain was the proper arbitrator, owing to the common language and the relations of the two countries with the nations, as well as Spain's possession of official archives relating to Spanish America.

IT TURNED OUT TO BE A CANARD.

Official Denial of the Alleged Insult to Maj. Dreyfus.

Paris, July 28.—An official denial was issued Thursday of the report that Maj. Dreyfus' face was slapped by an unnamed army officer at the Circle Militaire, one of the most exclusive clubs in Paris. Dreyfus dined at the club, but he was not molested. The report of the attack was so widely circulated that the official denial was given out.

Black Sea Mutineers Sentenced. St. Petersburg, July 31.—The naval court has passed sentence upon seamen arrested for mutiny in the Black Sea fleet in 1905. Four were condemned to death, one to life servitude, 32 to penal servitude and 50 to imprisonment.

THE VEIL

Is not always used to protect the face from the elements and keep the hair in position, but by many, many women and girls to hide the unsightly pimples, blackheads and other eruptions of the skin. There is a life in the skin and "ZEMO," a nice, clean liquid for external use, soon kills out this germ and leaves the face as smooth and soft as that of a child. "ZEMO" will positively cure all skin and scalp diseases, such as Eczema, in its many forms, ringworm, tetter, pimples, headlump, or any itching skin disease. Get a bottle to-day as your druggist's.

HARTJE CLOSES HIS CASE

ALL OF THE EVIDENCE FOR THE
LIBELANT IS NOW IN.

Evidence in Rebuttal For Mrs. Hartje Will Now Be Presented—The Day's Developments.

Pittsburg, Pa., Aug. 1.—Attorneys for Augustus Hartje, who is seeking a divorce from his wife, Mrs. Mary Scott Hartje, somewhat unexpectedly closed their case Tuesday. All the evidence in support of Hartje's position is now in. Attorneys for Mrs. Hartje asked for and obtained an adjournment until this morning to prepare their plans for presenting evidence in rebuttal.

Augustus Hartje, on the stand, denied the charges made by Madine regarding the blonde woman episode, and that he had offered Madine money to testify that a man was in the Hartje home alone with Mrs. Hartje while Hartje was away. Hartje admitted owning a house at which he was said to have visited Josephine Wright. He swore that he did not know the woman and did not know the character of the house until it came out at the trial.

The much-disputed Helen Scott letters were admitted as evidence. A lengthy and rather heated argument preceded their admission, which is regarded as a signal victory for the libelant. These are the letters purporting to be from Helen Scott to her sister, Mrs. Hartje, which counsel for the libelant assert prove that Helen was a go-between for "Tom" Madine, one of the co-respondents, and Mrs. Hartje.

CONFERENCE AT SAGAMORE HILL

Oyster Bay, Aug. 1.—Senator Charles Dick, of Ohio, and Elmer Dover, secretary of the Republican national committee, made a joint pilgrimage to Sagamore Hill Tuesday. President Roosevelt discussed with them for two hours the political situation in Ohio.

Aside from the advantage of the discussion, the simple fact that Senator Dick was a guest at Sagamore Hill and came away bearing the president's expressions of enthusiastic desire for harmony and success in the coming congressional campaign, is regarded as a political occurrence, which will have decided weight in the republican situation in Ohio. It has been said in Ohio that Senators Foraker and Dick do not stand for the Roosevelt administration, and this report did fair to cause at least a degree of trouble. It has now been "nailed to the mast" if these words from Senator Dick have meaning.

"It is safe to make one prediction that President Roosevelt's administration and the work of congress will receive sincere and enthusiastic endorsement in the Ohio republican platform."

RECOGNIZES BARRINGTON.

Englishwoman Identifies Him As Frederick Barrington Seymour.

St. Louis, Aug. 1.—After visiting Frederick Seymour Barrington, condemned for the murder of James P. McCan, in his cell in the Clayton jail, Tuesday, Mrs. Lillian M. Gates, 4129 West Belle place, stated that she had positively identified him as Frederick Barrington Seymour, whom she knew in England in 1884.

Mrs. Gates went to the Clayton Tuesday and had a long talk with the celebrated English prisoner. She said she knew Seymour in England, and that the Clayton prisoner is none other than her old acquaintance. She says that he is well connected.

Mrs. Gates, it is said, is the niece of Lord Beaconsfield, the celebrated manufacturer of ale. She has been living in St. Louis for several years.

STANLEY SCHOOL HOUSE ITEMS

One day last week while Rev. W. H. Moore was cutting his meadow he had the misfortune of having his fine black horse bitten by the largest copperhead that has been seen in this section for many years.

Mr. Bert McGreggor and family visited their old friends and neighbors Sunday.

Mr. Bert McGreggor's residence narrowly escaped destruction by fire last Sunday. No one was at home except Mrs. McGreggor and children at the time. The roof caught fire and Messrs. Richard Brown and Jesse Brooks, who were passing, rushed in and extinguished the flames before much damage was done.

A Great Opportunity

—TO OWN VALUABLE—

Madisonville Real Estate ON EASY TERMS.

While the sale of lots Saturday in the Dan Daves Addition was very successful, yet owing to the rain in the forenoon and the threatening weather in the afternoon, only a limited number of lots could be sold in the short time the sale was conducted.

As Mr. Daves is very anxious to close out the lots and go to California, the following proposition is made:

Beginning Monday, July 30, and continuing two weeks, persons interested can secure choice of remaining lots for \$100 each. First come, first served.

There are quite a number of choice lots, corner ones and pretty ones, left right by the side of some that sold for more than \$100. These lots will not last long. If you want one you had better "get in the game."

Terms: \$25 cash; balance in monthly installments of \$10, with 6 per cent interest; 2 per cent discount or all cash.

Call at office of Western Kentucky Real Estate Co., up-stairs over Singer Sewing Machine office, opposite court-house, and conveyance will be furnished to show you the property.

Don't wait until these lots are all gone and then regret that you did not make an investment that is sure to be very profitable.

Warm Weather Shirts

The time for changing Shirts from three to six times a week is upon us. Our stock of "GOLD" and "SILVER" Shirts is replete with Choicest Patterns and Latest Cuts

"Silver" Stands for \$1.00

THE "COAT" SHIRT

Occupies a conspicuous place in our Shirt stock this season. It is a sure go with young men, while of course some of the older men will insist on pulling their Shirts on over their heads. We show you the "Coat" Shirt in both Gold and Silver.

Of course we are showing a Superb Line of

50c Shirts, too.

Let us have your Shirt Business; it will be appreciated Satisfaction Guaranteed.

Bishop & Company

COLORED COLUMN

EDITED BY JAMES E. TODD.

Simon Dunlap, Wm. Killbrow and many ladies and gentlemen attended the Knights of Pythias Grand Lodge at Henderson last week and report that they were royally entertained.

Mr. Wm. Killbrow has returned from a week's visit to his old home at Clarksville, Tenn.

Miss Emma Payne, of Henderson, visited our city this week to the delight of her many friends.

The State Educational missionary has been visiting in the city and received \$10.00 from Mr. Zion Baptist church.

The Bible scenery, which was given at the Baptist church, was a success.

Mr. Jake Johnson and Miss Evelyn Offutt, both of this city, were quietly married Saturday at Madisonville. Their many friends wish them a happy journey through life.

Mr. Carrie McNicols had the misfortune to have a leg broken Sunday while out driving with some ladies. The horse became unruly and upset the bike. She escaped more serious injury by walking with the broken limb after the accident happened.

I wish to announce that I have had strayed from me one cow with one ear missing. Has been gone a month. Anyone knowing her whereabouts or bringing her home will be rewarded.

NOAH FORT.

A grandmothers' and fathers' reunion will be given Saturday at Lakeside park by the citizens. Every parent is requested to bring a well filled basket. An excellent program has been prepared. Music will be furnished by the Earlington Cornet Band.

Miss Bessie Amos is ill.

Mrs. Bogus and daughter, Myra, are improving slowly.

Mr. Fate Wilkes was able to be out on his porch Sunday. He is improving rapidly.

MORTONS GAP COLORED NEWS.

Rev. John Jones, of Eddyville, preached at the Baptist church Sunday.

J. F. Mitchell, who has been ill of pneumonia, is improving.

Mrs. Ida McNary and Mrs. Artie Johnson are visiting in Greenville this week.

M. A. Hamilton went to Madisonville Saturday.

Mr. and Mrs. Will Green and daughters, Myrtle and Bertha, went to Graham Saturday and were the guests of Mr. and Mrs. Bud McKee. They returned Sunday.

Mr. John Thompson went to Louisville Sunday on the excursion.

Mr. and Mrs. Richard McNary and little daughter and son, Leona and Ernest, went to Greenville Sunday.

Mrs. Sadie Hall went to Madisonville Friday and Saturday to the county teachers' examination.

Mrs. Lela Grady will open her school at Barnesville Monday, Aug. 6.

W. Hopson went to Madisonville Saturday.

Mr. and Mrs. Lewis Olemons, Louise Brasher, Richard Morton and Warren Porter attended the funeral of Fannie Clemons at Nortonville Sunday.

Mr. Richard Morton is spending a week at Dawson.

Sanford Brights, who spent two weeks in Hopkinsville as the guest of Miss Sallie Givens, returned home Thursday.

SHOSHONE RESERVATION TION OF WYOMING.

Detailed Information in Special Report of U. S. Geological Survey.

In view of the fact that Earlington has furnished several travelers to the drawing for homesteads and mineral claims in the Shoshone reservation and that others may go from Hopkins county the following special bulletin from the department of the United States Geological Survey will be of interest to the readers of THE BEE.

Those who have gone to the opening of this new country are: Dr. P. B. Davis, Eldred Davis and Buck Shaver.

The Bulletin says: About a year and a half ago, the Shoshone and Arapaho tribes of Indians belonging to the Shoshone or Wind River reservation in the State of Wyoming ceded to the United States a portion of their reservation. By public proclamation, on June 2, 1896, the President of the

United States made known that all the unallotted lands in the ceded portion of this reservation would be opened to settlement, on and after August 15, under the general provisions of the homestead, townsite, coal and mineral land laws. As it felt that people throughout the country would be interested in the opening of these lands, and desirous of knowing something about their character, the Secretary of the Interior was directed by the Senate to furnish such information relating to the geology and the natural resources of that region as might be in possession of the geological survey. This information is now available in the form of a report by Mr. N. H. Darton on the form of the Mr. N. H. Darton on the geology of the Owl Creek Mountains, with notes on the resources of adjoining regions in the ceded portions of the Shoshone Indian Reservation.

This report, which is illustrated with maps and photographic views, is published as Senate Document No. 218. It may be obtained through requests made to members of the Senate or the House of Representatives.

The contents of this paper include a discussion of the geography, geology, mineral resources, surface waters, hot springs, underground waters, irrigation, climate and timber of the region.

The field work on which this report is based was done during the summer of 1905. The geology of the region has never before been described. Much more attention was given to the Owl Creek Mountains, with their diversified and interesting geology, than to the plains and bad lands of the White River basin. Mr. Darton was assisted in the work by Mr. C. A. Fisher, who mapped a considerable part of the area, and Mr. E. G. Woodruff, who served as geologic aid.

Municipal and Private Utilities.

Indianapolis, Ind., July 28.—The forthcoming report of the Indiana Bureau of Statistics will deal with economic questions more in detail than ever before in its history, and there will be exhaustive chapters on the receipts and expenditures of cities and towns, salaries of officers, bonded and floating debt, tax rates and assessments, and other phases of local government, which will give the people either by municipal-owned or private corporations.

According to the tabulated returns, there are eighty-four cities in the State, and forty-nine of these own and operate their waterworks systems, thirty-three are supplied by systems owned by private capital, and two have no waterworks. The average cost in the forty-nine cities in which the plants are owned by the municipalities is \$15,533 per year, and in the cities where the plants are owned by private capital the average cost is \$10,386. Of these cities, thirty-two own their electric light plants and fifty-two are lighted by private capital. The average cost in the municipal ownership cities is \$10,010 per year, and two of the other cities the average is \$10,000 a year. While, therefore, the cost of lighting the streets in cities owning their own plants is less, the cost of water hydrants in the same cities is a great deal more than where supplied by private capital.

An analysis of the statistics shows some peculiar conditions when cities of practically the same population are considered. For instance, Crawfordsville owns and operates its electric light plant, while Jeffersonville is served by a private corporation. But the cost in Crawfordsville is \$68 per light per year and in Jeffersonville \$65. The city of Washington, which owns its plant, pays \$75 per light, while Valparaiso, which is served by private capital, pays \$67. The city of Richmond, where the sale of the plant is under consideration because it has proved unprofitable, pays \$70 per light, but in New Albany the cost to the city under private contract is only \$38 per year.

The statistics appear to have had considerable trouble in getting complete reports from the cities in which the waterworks and electric light plants are owned by the municipalities, and while the reports from those served by private capital are very full, the majority of those having municipal plants have failed to report all the data asked for. Some of them report expenses, but give no receipts. Others give totals of receipts and expenditures without showing the actual sources, and other give partial receipts and expenses only. What leads to these differences is known, but the inference is that no accounts in some cities are kept separately, and there is no way to arrive at exact data.

It appears from the tabulated returns, however, that some of the cities are operating their waterworks at a profit and their electric light plants at a loss, while some are reversing these conditions and other evidently losing money on both. Twelve cities are shown to be losers on the combined business of the two systems, and out of seventeen which make complete reports, that is, show receipts and expenses in connection both with waterworks and electric light plants, five only make a showing of profits. Combining the receipts from both sources and the expenditures on account of the same, the showing made by the seventeen cities is as follows:

Cities—	Receipts.	Expenses.
Anderson.....	\$108,015	\$145,785
Attica.....	12,905	11,084
Butler.....	1,086	1,080

SOUTHWEST

The Land of BIG CROPS and PROSPERITY

Are you making as much off your farm as you ought? No doubt you are making all you can. The trouble is the land costs too much. It takes too much money to buy a big farm, and so you are trying to make a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, in rent. Wouldn't it be better to go where the price of good land is so little that you can own a big farm—where every acre of the ground is working for you and all your raise is paying you good profit?

There are thousands of acres of fertile land in the Southwest along the line of the Cotton Belt Route that can be bought for from \$3 to \$10 an acre. This land is increasing in value each year.

See the Southwest at Small Cost

A trip to the Southwest would convince you that your best interests lay in settling there. The trip can be made at very little expense. On the 1st and 3rd Tuesdays of each month you can purchase a round trip ticket to any point in the Southwest or via the Cotton Belt Route at very low rates. Stop-overs will be allowed for you to examine any locality you are interested in.

Write at once for free copies of books describing this wonderful country and for full information about cost of tickets, etc.

Democratic Primary Vote.

Austin, Tex., Aug. 1.—Three days after the democratic primary election of Texas to decide the race for party nominees for governor and other state officers, the result finds T. M. Campbell, the union labor candidate, in the lead in the primary vote. M. M. Brooks, C. K. Bell and C. L. Cougle, the other three candidates for governor, will go the convention in the order named. No candidate has as yet received enough votes to make him the primary nominee, and the contest for the nomination will have to be fought out in the state convention, which will meet in Dallas August 14.

UPLIFTING THE NEGRO RACE.
Negro Youth People's Educational Congress At Washington.

Washington, Aug. 1.—The Negro Youth People's Christian and Educational Congress, having for its object the education and moral uplifting of the race, began a five days' session in this city Tuesday. Delegates from throughout the nation, and some have come from foreign lands. The first day's session was devoted to addresses of welcome and speech-making. Bishop Wesley J. Gidycz, and Secretary of the Navy Bonaparte, being the principal speakers.

Sensational Preaching.

The following is from the Turner County Banner, of Ashburn, Ga.:

"We are glad to see the press and the pulpit taking up for discussion the question of sensational preaching, as a great many of our very best people are thoroughly convinced that the matter has reached a point where something must be done, else the church and its influence for good will be sorely reduced, and we may say, well nigh ruined."

"It has long been the opinion of a great many of our best people that a sad mistake was being made by the pulpit methods of too much sensationalism—too much play on the emotional nature of men and women, and too little genuine, unadorned, Christlike religion."

"In speaking of the Torrey meetings in Atlanta, the Rev. W. T. Hunnicutt has this to say: 'The services received \$5,000 worth of advertising, and if it had not been for this, they would have failed. I believe these services did some good, but I do not think that the beneficial results derived from these will counterbalance the harmful influences they spread. I am opposed to all meetings of this kind, for I believe that they are causing the people to lose confidence in the local preachers.'"

"In our humble opinion the Rev. Hunnicutt has touched upon what is fast becoming a great evil in the Christian church—the term Christian church being used here in its broadest sense. The idea that in order to have a religious revival in a community, a professional evangelist or radical religiousist who must needs stir up a sensation, even if he has to resort to coarse slang or to making an intemperate attack upon some individual or established interest, secret orders for instance, must be imported for the occasion, not only tends to discount the legitimate and established ministry, but is fast stripping the church of its dignity and power for good, and dragging it down into the slums of mere sensationalism and modern politics."

"On this subject the Albany Herald has this to say, editorially: 'Sober church people may well begin to view with alarm the frolics that are being made upon the decorum and sanctity of the established church by sensational preachers and transient, peripatetic evangelists who are for hire at so much per week to 'stir up things' in religious circles. 'The methods of the average professional evangelist, as such work is now done, must be sensational in order to attract attention, and if a motley crowd of curious onlookers and weak persons, who easily give

way to human emotions, is attracted to the meetings, it is claimed that they are "successful," and that great good has been done, whereas, as a matter of fact, when the flannel mouthed orator and sympathetic hymn singer have departed, the slummers return to the slums and their wicked ways, and the regular congregations of real Christians of the established churches lapse into a state of inertia that is inevitable after a season of excitement and nervous tension."

"Following the spectacular and sensational performances of one of these noisy, undignified and sometimes blasphemous evangelists. The sober preaching of devout and ethical men of the cloth must seem tame indeed to the morbid ones who have feasted for a time upon humorous emotions and mistaken religious zeal."

"We yield to no man a greater measure of respect for Christianity, the Christian ministry and the established church of God than we have, yet we have about reached the point where we regard the coming of one of these sensational evangelists to the community, with the inevitable awakening of every fanatic within range, as something in the nature of a plague."

"A number of the Baptist ministers of Atlanta have entered a protest against the return to that city next year of Evangelist Torrey. One by one the ministers are becoming converted to the idea that emotional preaching is not the proper kind, and the sooner all preachers and people learn this truth, the better for the churches."

MINING NOTES.

Geologic Work in the Coal Fields of the United States.

The work of investigating the coal and oil deposits of the United States, which is carried on by the Geological Survey, is under the direction of Mr. M. R. Campbell. During the present season his headquarters will be in Salt Lake City, and he will spend most of his time in visiting the various parties engaged in the work.

Mr. George H. Ashley will have general charge of geologic work in the northern Appalachian coal fields, including investigations in Pennsylvania, West Virginia, Kentucky, and Virginia. He will have personal supervision of the Pennsylvania work, which includes the survey of several quadrangles.

Mr. W. C. Phalen, who last year studied the geology of the northeastern corner of Kentucky, spent some time during the past spring in gathering additional data in that area for a bulletin on the economic resources of the Kenova quadrangle, which covers all of Boyd and much of Lawrence counties, with parts of Elliott, Carter, and Greenup counties. Mr. Ashley will give some attention to the problem of the high level gravels of that quadrangle and adjacent regions preparatory to the publication of the folio on that quadrangle. In Pike County Mr. R. W. Stone, assisted by Mr. E. M. Dawson, Jr., will examine a portion of the Elkhorn coal field in connection with a study of a portion of the State of Virginia lying immediately south and southeast.

Mining for Kentucky Diamonds is About to be Started.

Glasgow, Ky., July 23.—The diamond fever is fast taking possession of the people of Kentucky. Several mines said to contain diamonds have already been opened in the State, and not without results, although in many instances the work is carried on quietly and it is only once in a great while that mention is made in the papers of the progress made, and then these items are so written as to cause very little interest.

Since the issuing of a pamphlet on the production of precious stones by Geo. F. Kuntz, of the Geological Survey, matters have assumed altogether another shape. Mr. Kuntz, who is an expert in precious stones, acknowledged the best in the United States classes Kentucky as one of the four localities in this country in which diamonds have been found.

It is said that the latest improved machinery will soon be placed in Elliott county, Ky., for the purpose of mining diamonds, and it is believed by experts that this field will rival the great diamond mines of Africa. Every indication is parallel with those of the Transvaal mines, and the character of stone and sand is identical.

Anthracite coal operators say: "The labor situation in the anthracite region is today one of profound peace. In all the active collieries mining is progressing satisfactorily. Fully 90 per cent. of the workers have returned or been replaced. The agreement extending the award of the anthracite strike commission until April 1, 1909, has been accepted in entire good faith."

Willard Cuviness and Wm. Rayburn, of the mechanical department, went to Dawson Sunday to some work at the Arcadia hotel.

Gus Bassett, of near Providence, has bought of T. P. Peyton 20 acres of land east and adjoining the Rose Creek Coal Co. land and also 60 acres of land on

SPECIAL!

TOOMBS & FAWCETT

The Real Estate Dealers

—OF—

Earlington Kentucky

WISH TO CALL YOUR

Attention to the fact they have some very desirable property for sale both in Madisonville, Ky. and Earlington, Ky. Also a number of fine farms in Hopkins county. Some of these **MUST SELL QUICK**. In order to do this we have decided to make Every Deal a Special One **This Week of the Great Hopkins County Fair**.

Now, in order to secure a **Bargain** in either a House and Lot or a Farm **CHEAP** see us first, and let us show you before your neighbor beats you and gets first choice. When you see our Property **Just then you are Convinced**.

You can see us any day you wish. **Remember This Special Offer.**

TIMBER! TIMBER!

We have 550 acres Virgin Timber, only 7 miles to railroad which is near by for a fine grade of timber. Any one interested in a timber proposition cannot afford to miss this opportunity. All we ask is that you see it. We must sell quick.

Come or send your experts to see this timber before some one else gets this bargain. **Price Very Cheap.**

If you have anything to sell list it with us as we earnestly solicit your patronage it costs you nothing.

Respectfully yours,

Toombs & Fawcett,
Earlington, Ky.

the east side of the Rose Creek Coal Co., known as the Baldwin farm lying near Nebo. Consideration \$50 per acre for the 20 acres and \$1100 for the 60 acre farm, which he turned over to the Nebo Coal & Coke Co. The new mines will be opened on this land instead of the land on the L. & N. railroad, as reported heretofore. The engineer worked on the site one mile east of Nebo on the railroad during the past week, but as soon as the above land was secured they changed to it. They bought out the tenants and got possession immediately. The new mines will be two miles south of Nebo instead of one mile east.

STATE CONVENTION.

Sunday Schools Meet at Clyffside Park August 21.

The forty-first annual convention of the Kentucky Sunday School association meets at Clyffside park, midway between Ashland and Cadetsburg, August 21, 22, and 23. A strong and attractive program has been arranged. Besides the best talent of our own state, Mr. W. C. Pearce, of Chicago, Dr. H. M. Hagin, of Nashville, Rev. William McGinnis, of Richmond, and Dr. C. H. Hinkle, of Parkersburg, W. Va., will be with us. Every Sunday school of the state is entitled to representation.

Trout Had a "Jag" on.

Gene Lovett, a trapper, was fishing near the source of Upper Salmon Branch across a pool in which the trout behaved in a most ungovernable manner. Never in all his experience had Lovett ever observed trout, or any other fish for the matter of it, cut up such extraordinary dices, and he concluded that they must be bewitched.

The stream at the point in question is a tiny brook, but now and then deepens into deep pools, into which just enough water flows to keep the trout fat and healthy. The banks are deeply wooded, and the territory is inhabited only by Sam Wilsie, another trapper, who has a cabin not far from the spot where Gene was fishing.

Lovett has frequently fished the brook, but never until this eventful day he ever noted anything out of the ordinary with the trout. This morning he had hardly touched fly to the water before a monstrous trout leaped high in the air, turned a double flip-flap in the hook and scudded on his side for the bank. Instead of turning or diving he rammed his head straight into the mud, and there he stuck until the fisherman reached over and caught him by the tail.

half a dozen big fellows would start for it, and the fisherman solemnly declares the losers would fight among themselves until the edges of the pool were fringed with dead and maimed fish.

Trout taken from the water appeared to be in normal condition, and Lovett, utterly nonplussed, set out to confer with Sam. Incidentally Sam was never without a barrel of fine cider, and as the day was hot, the visit appealed strongly to Lovett. Had it been earlier in the season Sam would have had several barrels in his cellar, for it had been declared upon good authority that he could put away his own weight and then outshoot half the trappers in the county.

When Sam heard of the bewitched trout he laughed until the tears flowed down his weather-beaten cheeks.

"Well, I swan, I never thought it would do that to em," he gasped when he got his breath.

"Do what to who?" asked the mystified Gene.

"The trout. You see, it's this way: I got religion and swore off last week, and as the pastor said the elder must go, I took the last barrel I had buried in a spring down by the brook and dumped it into the pool. I never thought 't would go to the heads of them trout, honest I didn't. I a'pose they drank some and some soaked in, until they got downright lit up. Well, I'd rather 'twas them than me, seem' I've swared off."—Washington (Me.) Cor. New York World.
